# **Wildlife Adventures Around Ashby**

## **Martin Vaughan**

**Fellow of the Royal Photographic Society**

This talk tells the stories, and shows the photos, of some of the projects Martin undertook to obtain unique photos of his local bird life. Martin obtained his RPS fellowship for his understanding of British wildlife and fieldcraft, and his ability to anticipate and picture wildlife to a high standard. Martin's determination to celebrate the wildlife within five miles of his home in the National Forest is testament to his pride in his local patch, and the exciting changes he has seen.
